

2011 New Mexico: LAS CONCHAS

nm3581210654120110626

Latitude: 35° 52' 12.0"
Longitude: -106° 25' 22.8"
Fire Ignition Date: June 26, 2011
Assessment Type: Extended
Pre-Fire Image Date: June 24, 2011 (Landsat 5)
Post-Fire Image Date: June 18, 2012 (Landsat 7)

This map portrays fire severity for the fire specified in the map title and summarizes proportions of fire severity classes. These data are produced under the Monitoring Trends in Burn Severity (MTBS) project jointly implemented by the USGS EROS and the USFS RSAC. The MTBS project ascertains the locations of fires based on available fire occurrence information provided by federal and state agencies, and other reliable sources. The MTBS project reserves the right to correct, update or modify geospatial inputs to this map without notification.

* Areas in either the pre-fire or post-fire reflectance imagery containing clouds, snow, shadows, smoke, significantly sized water bodies, missing lines of image data, etc.
